TEAM 4 PLEASANT PROCEDURES

A smartphone mockup displays a mobile application interface. At the top, the title 'Bike Theft Report' is shown. Below it, the section 'Part 1: Contact details' is indicated. Three input fields are present: 'Email *', 'Repeat email *', and 'Phone *'. At the bottom of the screen are two blue buttons labeled 'BACK' and 'NEXT'. The footer of the app screen reads 'Part 1 of 3'.

The screenshot shows a software interface for building forms. On the left, there's a 'Field Library' sidebar with sections for 'Fieldtypes' (Name, Phone Number, Multiple choice question, Select list) and 'Template fields' (Choose the Belgian province). On the right, the main area displays three input fields: 'Name' (John Doe), 'Phone Number' (+322435646545), and 'Email' (john.doe@gmail.com). A 'Field Details' panel on the far right shows 'Number input' selected as the field type with a 'Required' checkbox checked. A blue button at the bottom right of the main area says '+CREATE NEW FIELD'.

The 10 Commandments

- ➊ I, the Lord, am your God. You shall not have other gods besides me.
- ➋ You shall not take the name of the Lord, your God, in vain.
- ➌ Remember to keep holy the Lord's Day.
- ➍ Honor your father and your mother.
- ➎ You shall not kill.
- ➏ You shall not commit adultery.
- ➐ You shall not steal.
- ➑ You shall not bear false witness against your neighbor.
- ➒ You shall not covet your neighbor's wife.
- ➓ You shall not covet your neighbor's goods.

YOU CAN DO IT

CIRCL / Vanhout

Get to know an #osoc22 project:
What if you could see your dream house before it's even built? 🏠 |
The Sphere Team is working with CIRCL & Vanhout NV on a project that aims to inspire people on what their future home could look like with 3D visualizations and open data. This project would first-time home-builders with visualizing the possibilities of a house that hasn't been built yet.
Our partner Vanhout NV is a renowned and diversified construction group, active in a wide range of construction activities!

Very promising, right? Don't forget to reserve your spot for our #DemoDay to check out the results of this innovative project - link in our bio! 🌐 #osoc22

Procedure builder (BOSA)

Get to know an #osoc22 project:
Everyone has encountered our government's procedures, from requesting a new identity card to reporting a stolen bike.

The goal of the Pleasant Procedures team is to support our government in improving those procedures. For this, the team is creating a modular easy-to-use tool, for assisting the government administrators with building procedures.

Our partner iO Digital is working with BOSA to design and build an eGovernment app: Digital Wallet.

Want to understand it better and see the results from this project? Get free tickets to participate in our #DemoDay at the link in our Instagram bio! 🌐

1

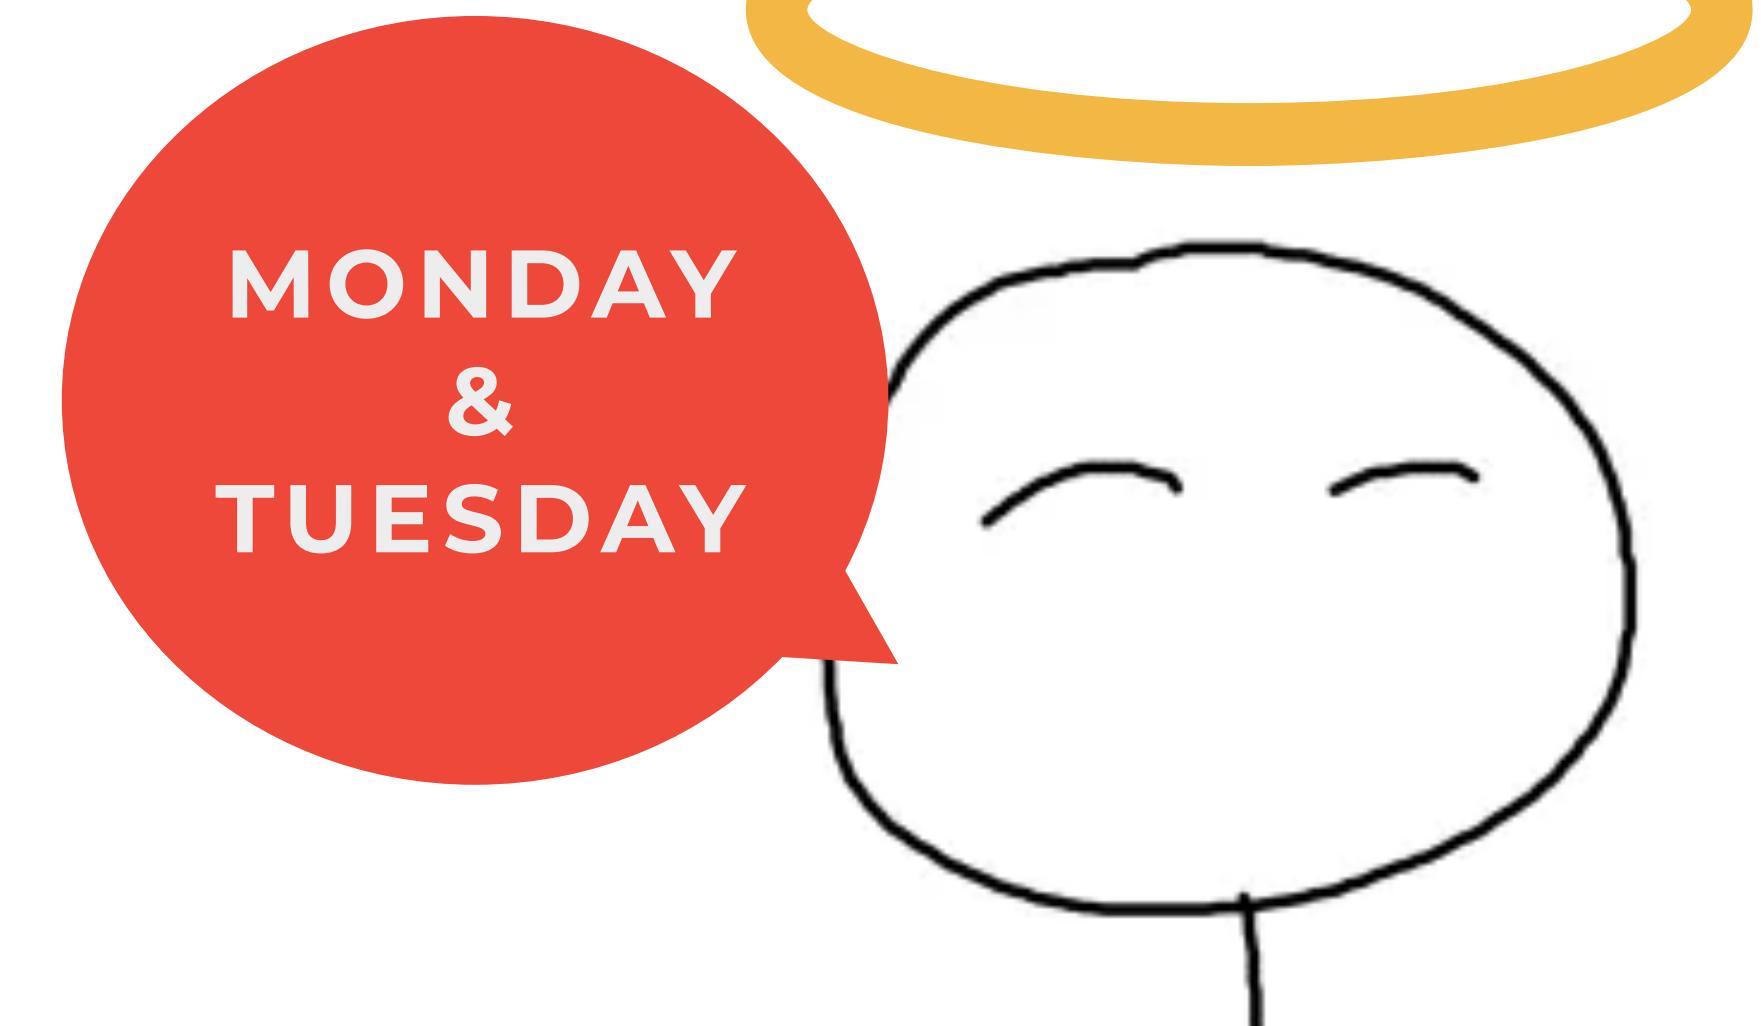

Make sure your team ships something.

Showing something that works
on the demo day is key.

7

Make sure your team ships something.

Showing something that works
on the demo day is key.

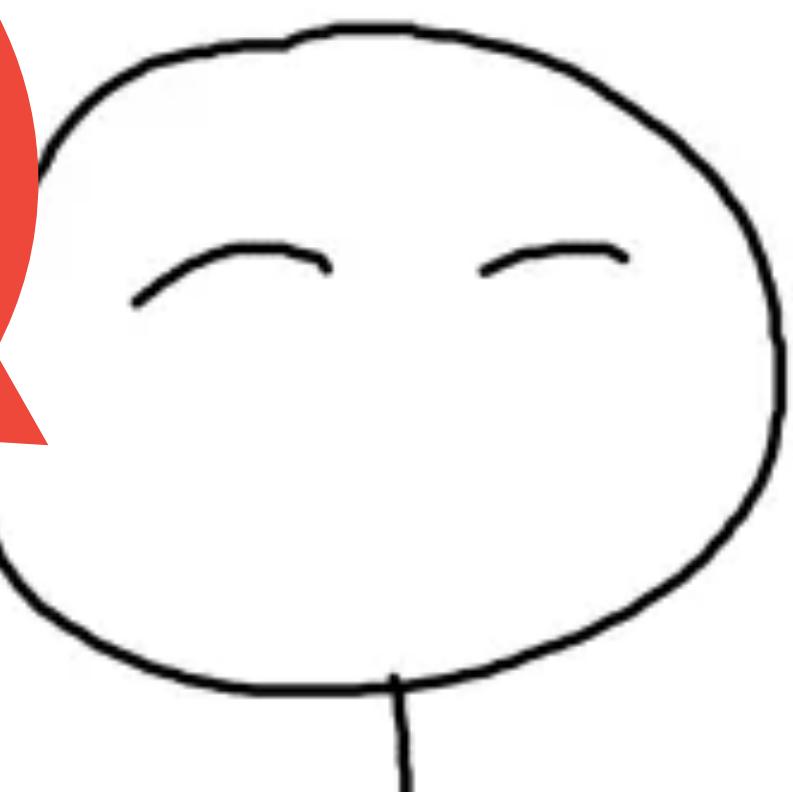

7

Make sure your team ships something.

Showing something that works on the demo day is key.

MONDAY
&
TUESDAY

WEDNESDAY
YOU'RE ON
YOUR OWN

A large, bold, dark blue number '2' is positioned on the left side of the slide, partially overlapping a green curved shape at the bottom.

Make sure your partner can **find** & **reuse** that ship.

Open Source can only work when it's well-documented, and when the vision is crystal-clear.

3

Make the ship
discoverable &
traceable
for interested
audiences.

- Portfolio
- Making sure the project
doesn't disappear.

4

Support future teams by giving them the 411 in advance.

Good documentation, assets & guidance help future teams. It helps them turn your project into something that's even better.

We created a
deliverable checklist
to help teams accomplish
these steps.

Check what applies to your
team, add what you need!

Got to **your team's folder**.

GITHUB

Readme, clear code, issues & bugs

GITHUB Readme, clear code, issues & bugs

The image is a collage of several GitHub screenshots and a LEGO minifigure. At the top left is a dark blue GitHub interface with white text. To its right is a screenshot of a GitHub repository named 'osoc21/Final-Improved-String-pHarser'. This repository page shows the code structure, a README.md file, and various sections like About, Installation, Docker, Manual, Usage, Contributing, Python changes, Credits, and License. A large orange speech bubble on the right contains the text 'FIX IT!'. Below it is a white speech bubble with a simple smiley face. To the right of the white speech bubble is a LEGO minifigure with brown hair, a yellow torso, and an orange vest with a white 'H' on it. At the bottom right is another GitHub screenshot showing a repository with 12 branches and 0 tags, listing files like Backend, Docs, Mocks, Pozyx, safe_crossing, and .gitignore.

GUIDE

GitHub Pages

**The internet is volatile.
Things disappear. Your
effort should not.**

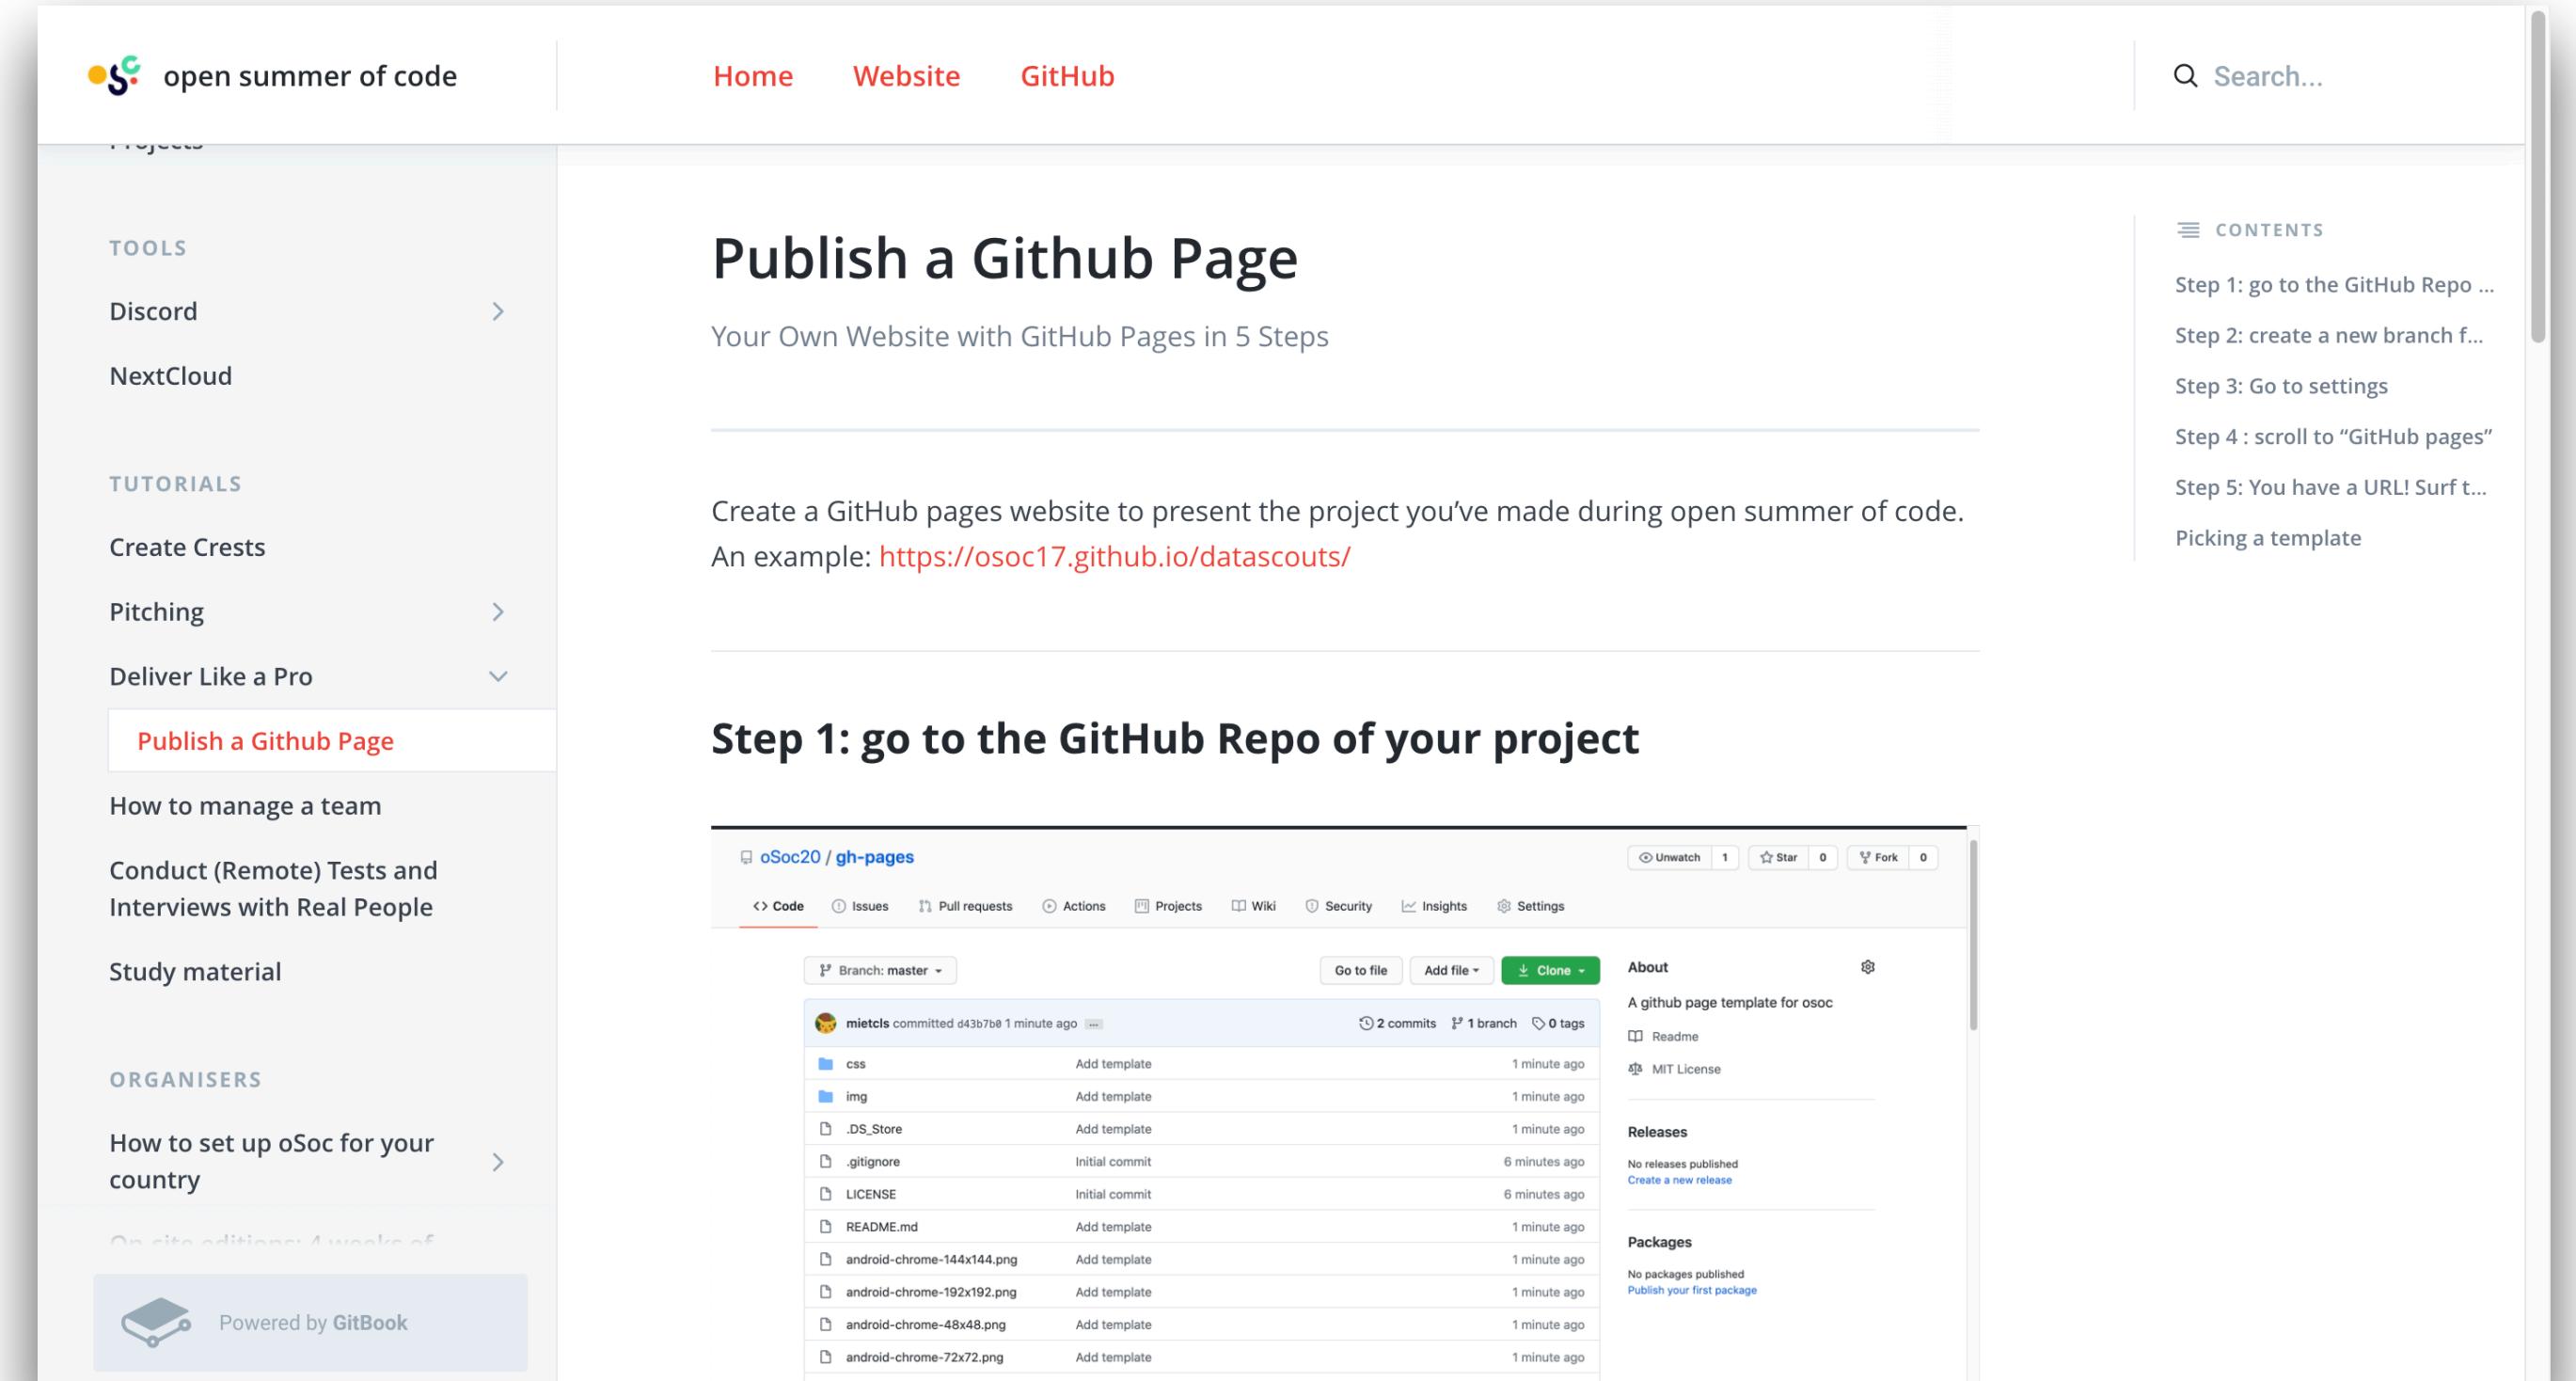

We want to make sure the project remains findable & traceable even after it's removed from its domain name, and is still legible by people that don't want to dive in the code.

GUIDE

GitHub

Pages

Guide

It explains step-by-step what to do, and how to get it live. You can also provide a different solution, of course!

The screenshot shows a web browser displaying a guide for publishing a GitHub Page. The title of the page is "Publish a GitHub Page" and the subtitle is "Your Own Website with GitHub Pages in 5 Steps". The main content area contains instructions for creating a GitHub pages website to present a project. It includes a link to an example repository: <https://osoc17.github.io/datascouts/>. Below this, there is a section titled "Step 1: go to the GitHub Repo of your project" which shows a screenshot of a GitHub repository page for "oSoc20 / gh-pages". The repository has 2 commits, 1 branch, and 0 tags. The commit history shows several files being added, including CSS, image files, and license files. The repository page also displays sections for "About", "Releases", and "Packages". On the left side of the main content area, there is a sidebar with a navigation menu for "Projects", "TOOLS", "TUTORIALS", and "ORGANISERS". The "Publish a GitHub Page" link under "TUTORIALS" is highlighted with a red box. At the bottom of the sidebar, there is a "Powered by GitBook" logo.

GUIDE

GitHub Pages

Once again, you complete freedom.
This is just an example for people that don't have a designer or time.

As long as it does *not* disappear.

The screenshot shows a GitHub Pages site for 'DataScouts'. The header features a teal bar with the 'DATA SCOUTS' logo and a 'SOCIAL MEDIA AGGREGATOR' tagline. Below the header is a circular network diagram. A sidebar on the left displays a collage of social media posts. The main content area is titled 'THE PROJECT' and describes the DataScouts Social Media Aggregator. At the bottom, there are social media icons for YouTube, Twitter, and LinkedIn, along with a 'START AGgregATING' button and a 'CONTRIBUTE' button.

Osoc gh-pages template

If you want to use this template, fork it to your /gh-pages branch, break it, fix it, ship it!

Replace the title with your project name. Write **in once sentence** what your project does. Your tagline or Unique Selling Proposition is suitable.

[View project](#)

[Contribute](#)

The project

Replace the image on the left with an image of the project you've made. Explain the project a bit better, with a short and clear. You can reuse the introduction you wrote for the [handover document](#).

Make sure your document has a short introduction about the project. You can reuse the introduction you wrote for the [handover document](#).

Want to know how this grid works, what the headers look like and what kind of buttons we have? Go to the [styleguide](#). Before you ship, don't forget to remove "styleguide-remove-me.css", and replace all the favicons.
